Secured by proper storage, first mortgage on said machinery, and at time of delivery of said machinery as above provided, or, at the option of the vendor, at any time thereafter upon demand, a mortgage on the lands described in the respective property statements on the back hereof, and also by Emily A. Allen agree to give first mortgage on S.E. Sec 20 Town 31 Range 29 W. 2 as shown on plat of said tract.

and if purchaser fails to pay said money or execute and deliver said notes and mortgage, (properly filed or recorded,) this order shall, at the Company's option, stand as purchaser's written obligation and have the same force and effect as notes and mortgage for all sums not paid in cash, the whole amount of purchase money shall thereupon become then due and payable, and the Company shall stand discharged from all warranty.

Said machinery is purchased upon and subject to the following mutual and interdependent conditions, and none other, namely: It is warranted to be made of good material, and durable with good care, and to be capable of doing more and better work than any other machine made of equal size and proportions, working under the same conditions on the same job, if properly operated by competent persons, with sufficient steam or horse power, and the printed rules and directions of the manufacturers intelligently followed. The condition of the foregoing warranty is that if, after a trial of ten days by the purchasers operating in the manner specified, said machinery shall fail to fulfill the warranty, written notice thereof shall at once be given to the J. I. CASE THRESHING MACHINE COMPANY at Racine, Wisconsin, and also to the dealer from whom received, stating in what parts and wherein it fails to fulfill the warranty, and reasonable time shall be given to said Company to send a competent person to remedy the difficulty (unless it be of such nature that a remedy may be suggested by letter,) the purchasers rendering necessary and friendly assistance and co-operation, and the Company reserving the right to replace any defective part or parts. If after giving the notice and opportunity to remedy the difficulty complained of, as above provided, the Company fails to send a representative to remedy said difficulty, (or to suggest an efficient remedy by mail,) or if, upon its attempt to remedy the same, the machinery cannot be made to fill the warranty, the part that fails is to be returned immediately by the purchaser, free of charge to the place where it was received, and the Company notified thereof; whereupon the Company shall have the option either to furnish another machine, or part, in place of the one so returned, which shall fill the warranty, or to return the notes, credits or money received for the machine or part so returned, and the contract shall be rescinded to that extent, and no further claim made on the Company. Failure so to make such trial or to give such notices in any respect, shall be conclusive evidence of due fulfillment of warranty on the part of said Company and that the machinery is satisfactory to the purchasers, and the Company shall be released from all liability under the warranty. Any assistance rendered by the Company, its agents or servants in operating said machinery or in remedying any actual or alleged defects, either before or after the ten days' trial, shall in no case be deemed any waiver of, or excuse for any failure of the purchaser to fully keep and perform the conditions of this warranty. When at the request of purchaser a man is sent to operate the above machinery, which is found to have been carelessly or improperly handled, said Company, putting same in working order again, the expense incurred by J. I. CASE THRESHING MACHINE COMPANY shall be paid by said purchaser. If any part of the machinery (excepting belting, which is not warranted) fails, from defect of material, while this warranty is in force, or during its first year use, the Company has the option to repair or replace the same, or furnish to the purchaser free of charge on presentation of the defective part or parts, but deficiency or defect in any piece shall not condemn other parts, and purchaser expressly waives all claim for damages on account of the non-fulfillment of said warranty by any of the above described machinery. Each machine and attachment is ordered at a separate fixed price, which price, unless otherwise specially agreed, bears the same ratio to the aggregate price above specified as the Company's 1910 list price of each said machine and attachment bears to the aggregate list price of all said machines and attachments. This order is divisible as to each machine and attachment ordered, and the failure of any separate machine or attachment to fill the warranty shall not effect the liability of the purchaser for any other machine or attachment hereby ordered. Should any machine or attachment be subject to return under this order, it shall be returned at the separate fixed price at which it was sold as above provided, and second-hand machinery or other property taken in trade shall not be taken into account.

It is further understood and expressly agreed that any breach of this warranty or any omission on the part of the Company does not confer any right of damage for delay or loss of work or earnings, or to other damages, and shall not effect the rights of the parties with respect to any other machinery sold the purchasers or any warranty of such other machinery and no cause of action arising out of this contract or transaction shall be offset or counterclaimed against any liability of the purchaser arising out of any other contract or transaction. In no event shall the Company be liable otherwise than for the return of cash and notes actually received by it.

Failure to fully settle on delivery as above provided, or to comply with any of the conditions of this warranty on the purchaser's part, or any change in the printed terms of this warranty or the conditions thereof by any person whomsoever, agent or otherwise, by addition, erasure or waiver, or any abuse, misuse, unnecessary exposure of machinery, or waste committed or suffered by the purchasers, discharges the Company from all liability whatever. No representation made by any person as an inducement to give and execute this order shall bind the Company. The purchaser hereby waives notice of the acceptance of this order by the Company.

The Company assumes no liability for non-shipment, delay in shipment or transportation. Acceptance by purchasers is a full waiver of any claim for delays in filling this order, arising from any cause. Attachments or devices specially ordered, and which are not made by this Company, are not warranted. Any misrepresentation or concealment in making property statement, or any failure to secure notes as above provided, or to pay said notes when due, shall constitute a full release and waiver of all warranty.

All moneys which shall be owing to or earned by the purchaser for work done by him or his agents, servants, employees or assigns during any season until the full purchase price and all notes or renewals thereof and all obligations given therefor be fully paid with interest, with or by the aid of the said machinery or any part thereof, or with or by the aid of the teams and appliances used in connection therewith, and all promissory notes and securities, either primary or collateral, taken by the purchaser or any agent or assign of his, for any such work as aforesaid, shall, to the extent of the said purchase price and notes, renewals thereof and all obligations given therefor, and all rights the purchaser may acquire under "The Threshers Lien Act" or amendments thereof with full power to enforce the same, belong to and are hereby absolutely assigned by the purchaser to the Company, it to apply any amounts actually received by it therefor, less all expenses of collecting the same, on account of the said purchase price and the said notes and obligations given therefor, and to receive the assistance of the purchaser in making such collection and in no case to be responsible in any manner whatsoever for failure or omission to realize on the said amounts so earned as aforesaid. And the purchaser hereby authorizes the Company to bring any action and take any proceeding in his name for the purpose of collecting any such moneys or securities and enforcing payment of same. And the purchaser hereby covenants to indemnify and save harmless the Company from all costs, damages and other charges to which the said Company may be put by reason of any proceedings it may see fit in its option to take for the purpose of collecting any such moneys or securities believed by it to be earned by or due to the said purchaser for work done as aforesaid.

The property in the above machinery shall not pass to the purchaser until the purchase money herein before mentioned and the notes given therefor or by way of renewal (if any) and interest thereon shall have been fully paid. The purchaser shall be entitled to the possession of the said machinery, until default is made in payment of any part of the price at his own risk as to damage or destruction by fire or any other cause, but if the Vendors consider that any part of the said purchase money or any of said notes or any renewals thereof should be insecure, or in default, then in such case the whole debt and any notes given on account thereof shall thereupon immediately become due and payable, and the Vendors may resume possession of above machinery with or without legal process, and may enter upon any premises, and force open any buildings, and take such other proceedings as may be necessary, and all payments made will be considered as rent only and this contract shall not in any way be affected thereby, or by any resale of such machinery. And in the event of the Company resuming possession as aforesaid, the purchasers hereby authorize and empower the Vendors in their discretion to sell said machinery by public auction or private sale, at such price and on such terms as to cash or credit as they shall think fit crediting the net proceeds of such resale when actually received in cash, after deducting all the expenses of resuming possession, repairing, refitting and reselling the same upon the purchase money payable hereunder and the purchasers shall remain liable for the balance of such purchase money, interest and expenses which shall then be payable forthwith, notwithstanding any deferred times of payment mentioned herein, or in any such notes as aforesaid, and shall be collectable from any liens or securities held by the Company, or by process of law in the usual way.

If crops in purchaser's vicinity are a failure and written notice is given to and received by the Company at Racine, Wisconsin, before shipment, the delivery of the goods covered by this order may be deferred one year. Said purchaser further agrees, that in case he fails or refuses to accept said machinery upon its arrival as above specified, or in case he cancels this order, he will pay said Company the freight and charges on said machinery from the factory to the place of delivery as above provided, and freight for its reshipment, and in addition thereto will pay fifteen per cent. (15%) of the above contract price, which it is hereby agreed shall be and constitute the liquidated damages for such breach of contract.

The undersigned hereby acknowledge to have received a full, true and correct copy of this order and that no promises, representations or agreements have been made to or with me not herein contained.
